Seller to furnish necessary labor, material and equipment to design, construct, transport and install two (2) sets of Philco Displays for Buyer's Exhibit Building, New York World's Fair as described below:

Lot \$99,285.00

ARCH

Twenty-foot (20') tall arch, with six legs, fabricated of laminated plywood. Each leg constructed of two layers of 1-1/2" plywood separated by spacers. Span of arch at base is approximately 10'6" diameter. Finished in metallic paint. At the top of the arch is a drum containing a 500-watt fixture. Suspended from the top is a 7' mobile of assembled chrome wire with reflective mirror danglers. The base platform within the arch is 2' tall with a paint finish. A Philco Color TV is displayed on this platform. Buyer to supply a basic cabinet in which a plexiglas copy face is applied and a revolving color wheel to project colored lights on the simulated screen. A decorative background 6' high and constructed of five folding screen panels forms a backwall for the TV. Two end panels are framed "fila grill" panels while the balance are solid with silk-screened identification. (Continued on Pg.2)
