

August 19, 1963

Mr. Ralph A. Rogers
President
The Institute of Audiographic Arts
11350 Ventura Boulevard
Studio City, California

Dear Mr. Rogers:

We are in receipt of your letter of August 14 and proposal contained therein with regard to providing a trial demonstration tape of two electronic compositions for possible use at our exhibition in the 1964-65 World's Fair.

For your information, we are presently completing negotiations for a contract with Walt Disney Productions, Burbank, California, for the complete sound package, musical scores and narrations covering the entire exhibit content of our World's Fair pavilion. Responsibility for this work will be entirely in the hands of Disney Productions and, therefore, we must suggest that you refer your proposal to them for their consideration. Should they be interested in the possibility of the Trautonium, acceptance of your proposal would be at their discretion.

Sincerely yours,

J. G. Mullaly
World's Fair Program Manager
