

January 13, 1964

January 10, 1964

TO: William Schoen

I am sorry to have delayed so long my reply to you regarding availability of the track for checking narration. I reported to your secretary this morning that January 15th is out because of scaffolding and I have since learned that the first day you will be able to ride the track again is January 25th but because there will be future testing of the track on that day it would be wise to delay your timing until the 26th.

I realize this is a Sunday but the fact is that unless you utilize one of these two dates, the track will be shut down again and will not be available for your purposes until February 18th. If you plan to come in on the 26th let me know and I'll meet you out there.

Jack says that it is a material to exploit the "Watch the Yards Go By" theme on this one, and I am sure you will want to put the idea in the mill.
