

Warnock
New York World's Fair

As per our discussion, I think we should plan some advance work on license plates of the Governors of the various states being invited to the Magic Skyway. The plate in each case **January 3, 1964** as we young lady - possibly Miss New York World's Fair if such a person is and properly done, it will assure us good usage in almost every state jurisdiction is made.

TO: **J. G. Mullyaly**

It is my understanding that test cars will be on the Magic Skyway beginning sometime around December 27 and that pictures could be taken thereafter. **RE: Magic Skyway Cars** with the idea of license plate renewals ages which occur in many states after the first of the year.

Unless there is a good reason for modifying them as they are, the steering wheels on the convertibles should be free wheeling, permitting youngsters to pretend, at least, they are driving.

Youngsters on the West Skyway will be under the wheel, at least on the T-Birds and Lincolns, because they can be lifted into the seats rather easily.

The frozen position of the wheel now leaves little feeling of participation. Frankly, I think I could break the wheel loose if, in any excitement, I chose to do so.
