Communications to Load Center 6

January 7, 1965

Memo to: George P. Sweeney
Subject: Relocation of Ride Control Starting
Procedure from Track Console to
Load Center #6
Ford Pavilion - New York World's Fair

In accordance with W. W. Hersey's proposal relative to the above subject and our meeting with Messrs. Lamerson and Capatina, this is your authorization to proceed immediately with the changes necessary to relocate the starting switch gear for the ride track from present location to Load Center #6.

We concur in all the changes and recommendations to effect this alteration as put forth by Plant Engineering Office this date.
