Ted Macky feels very strongly (as I reported to Millar today) that the I-beams supporting the "Magic Skyway" outside the building should be covered. I discussed this with Lamerson last Thursday afternoon and brought up the suggestion again this morning. Lamerson says it will cost \$25,000 so Ted is aware of the expenditure necessary to cover or otherwise hide the fact that these are nothing more than what they appear to be.

Ted also is distressed about our lack of a sign on the building. I told him that it still had not been fabricated and that it probably could not be installed before the end of December. He asked me to see that "pressure" be applied to the sign company to hurry along fabrication and installation.

Otherwise he seemed quite pleased with the way things are going.
